# GOALS OF OSSDC AT MONEF

---

Organize the training of skilled workers required by enterprises through TVET and temporary training systems, assess the skills of employees in the workplace, and develop career standards for enterprises and training institutions in the professions specified in the National Standard Classification Occupation as a guide to determine the level of NQF, registration and distribution.

# OBJECTIVES

---

1. Encourage industry and enterprises to develop and apply professional work standards at the international level (according to JFA, DACUM and other methodologies);
2. Within the framework of professional standard development activities, if the business entity wishes, to carry out on-the-job training, specialization programs and manuals;
3. Create conditions for staff skills, competency level, evaluation and quality assurance of work performance, develop training modules and conduct training in this area;
4. Vocational education and training institutions that provide training on "Competency-Based Learning" (CBT) and "SDIO" programs developed in accordance with Occupational Standards in Vocational Education and Training Institutions Provide advisory services and organize trainings to support the application of occupational standards in activities.

- Transfer government and enterprise services to electronic format using ITC technology
- Build the capacity for enterprise employees and citizens to use information technology widely
- Provide the capacity to protect one's health, work and run a business
- Disseminate new employment patterns and advanced methods

## **Mongolia to implement comprehensive plan against COVID-19;**

---

The government approved a comprehensive plan to protect the health of people and recover the economy amid the COVID-19 pandemic. The country will spend a total of MNT 10 trillion (EUR 2.9 billion), almost equal to the country's annual budget, to implement the comprehensive plan in the coming three years.

The country will vaccinate at least 60% of its population and the campaign is expected to begin in March 2021.
