

The Program on Productivity Improvement

- Decarbonization through Energy-Saving Improvements in Manufacturing Sites -

[TPPI]

- Duration: **8 Dec – 21 Dec 2026 (2 weeks)**
- Venue: AOTS Tokyo Kenshu Center
- Tagert: Senior Executives, Plant managers, and Production Managers in the manufacturing industry of Asian and Middle Eastern target countries who are in position to promote energy conservation and decarbonization
- Fee: Participants' training cost is partially subsidized.
Please refer to "Program Outline" for details.
- How to Apply: Please apply through an AOTS overseas collaborating Organization
- Application Deadline: **16 Sep 2026**

Inquiry

Overseas Cooperation Group I, AOTS

1-30-1, Senju-Azuma 1-chome, Adachi-ku, Tokyo 120-8534, Japan

TEL : 81-3-3888-8256 FAX:81-3-3888-8264

Email : shouhei-au@aots.jp

Program Features

- (1) To learn about the role and responsibilities of the manufacturing sector in decarbonization, as well as how the development of highly efficient production systems—a strength of Japan’s manufacturing industry—can lead to reduced energy consumption during manufacturing.
- (2) To deepen the participants’ understanding of specific energy-saving methods in production processes, such as waste reduction, energy consumption visualization, and the adoption of renewable energy in addition to the three approaches to energy conservation.
- (3) To be able to identify the appropriate measures to implement at their own production sites and formulate concrete action plans to promote energy conservation by taking steps toward energy conservation and the ultimate goal of decarbonization.

Tentative schedule

***All lectures and exercises will be conducted in English.**

Date	Morning		Afternoon
8 Dec (Tue)	Orientation/ Opening Ceremony 【Lecture】Manufacturing’s Roles and Responsibilities in a Decarbonized Society		【Lecture】Initiatives toward Carbon Neutrality in the Manufacturing Sect
9 Dec (Wed)	【Lecture】Productivity Improvement through 5S and KAIZEN on Site		
10 Dec (Thu)	【Lecture】Utilization of IT Technologies on the Production Line		
11 Dec (Fri)	【Lecture】 Energy Conservation through the Introduction of High-Efficiency Equipment		
12 Dec (Sat)	Day Off		
13 Dec (Sun)	Day Off		
14 Dec (Mon)	Study Tour	Move	【Visit】 Case of Utilization of IT Technologies
15 Dec (Tue)		【Visit】 Case of 5S and KAIZEN	【Visit】 Case of Energy Conservation Initiatives
16 Dec (Wed)		【Visit】 Case of Introduction of Renewable Energy	Move
17 Dec (Thu)	【Lecture】 Energy Conservation Initiatives on Production Line (1)		
18 Dec (Fri)	【Lecture】 Energy Conservation Initiatives on Production Line (2)		【Lecture/Exercise】 Action Plan Development Guidance
19 Dec (Sat)	Day Off		
20 Dec (Sun)	Day Off		
21 Dec (Mon)	Final Presentation Coaching		Presentation of the Action Plan (Overall) /Closing Ceremony

AOTS Tokyo Kenshu Center
