

4 March ~ 17 March 2026

@AOTS Kansai Kenshu Center, Osaka Japan

The Program on Transforming to Circular Economy Business Model [CEB]

Course Director:

Dr. Daijiro Mizuno

Professor,
Kyoto Institute of Technology
Center for Possible Futures

Objective and Highlights of the program

In this program, participants will learn about the concept of Circular Economy (CE), how to use effective tools to study measures to improve circularity, and how CE business should be conducted. Participants will also visit CE business practicing companies where they gain concrete knowledge on how to implement CE business models. Through these studies, participants will be able to promote the transformation to CE business models in their own companies.

- ✓ Organize and recognize changes in the business environment and deepen understanding of the **concept of CE, types of CE businesses, and basic strategies.**
- ✓ Learn **how to use circular design and other methods** necessary for building CE business.
- ✓ **Gain practical knowledge** about building a CE business and issues through **company visits.**
- ✓ Learn to **formulate action plans for CE business model transformation** through hands-on experience and acquire the basic skills to put them into practice in their own companies.

Dr. Daijiro Mizuno, **Course Director**

Dr. Mizuno completed his doctorate at the Royal College of Art in 2008 with a PhD in fashion design. His research focuses on design theories, methods, and practices of new artifacts for realizing new interactions and circulatory systems of the environment in a broad sense. In recent years, he has provided advice on the development of circular products and services to companies while also actively speaking as an expert at the Ministry of Economy, Trade and Industry and the World Design Assembly for the dissemination and establishment of circular design.
