### Lecturers

#### Mr. Yoshiaki UDA, Consultant, Uda Environmental Management Research Institute

After engaged in production engineering at a food company for 30 years, he established the Uda Environmental Management Research Institute, a SMEs diagnostician office, and has been providing environmental management support and quality control guidance to SMEs. Since then, he has been providing environmental management support guidance to more than 200 SMEs nationwide in introducing the Eco Action 21\* environmental management system. In 2020, the Japanese government awarded him the Low Carbon Society Contribution Award (Director-General's Award for Environmental Policy, Ministry of the Environment), and in 2021, presented the Minister of the Environment's Award for Commendation for distinguished service in Global Environmental Conservation.

\*Eco Action 21: Japan's unique environmental management system formulated by the Japanese government (Ministry of the Environment).

#### Mr. Nobuhisa NAKATA, Consultant, Uda Environmental Management Research Institute

#### Vice President, Osaka Environmental Counselors Association (NPO)

After engaged in equipment management at an electrical appliances manufacturer for about 10 years, Mr. Nakata started working for companies' energy saving activities through dissemination of Eco Action 21. Currently a member of the extension committee of the secretariat of Eco Action 21 Osaka. He also He chaired the "Energy Saving Handbook" published by Eco Action 21
