[LAOR]

13 January – 16 January 2027

The Association for Overseas Technical Cooperation and Sustainable Partnerships [AOTS]

1. BACKGROUND OF THE PROGRAMS:

The Association for Overseas Technical Cooperation and Sustainable Partnerships (AOTS) is an organization for human resources development mainly in overseas countries to promote technical cooperation through training, experts dispatch and other programs. Through those programs, we aim at contributing to the mutual economic growth of developing countries and Japan as well as enhancing friendly relations among those countries.

AOTS was established in 1959 with the support of the Ministry of International Trade and Industry (which is the present Ministry of Economy, Trade and Industry: METI) as Japan's first technical cooperation organization on a private sector basis. More than 200,000 individuals from 198 countries and regions have undergone our training in Japan, while the cumulative attendance at our overseas programs till the end of fiscal 2024 exceeded 240,000.

AOTS organizes and develops a various range of training courses based on requests from returning participants and industry in developing countries.

The Program on Organizational Revitalization for Latin America (LAOR) is designed primarily for business owners, executives, and senior managers in developing countries in Latin America, with the aim of developing professionals capable of revitalizing organizations within companies and other institutions. Through lectures, participants will understand and examine the mindset of leaders who drive organizational revitalization, while learning organizational development techniques through practical exercises. Furthermore, through case studies of Japanese companies that are implementing corporate philosophies and organizational development initiatives, participants will reflect on the future direction of their own companies and develop action plans to revitalize their organizations upon returning home, thereby enhancing their leadership capabilities.
